especificação do cliente.

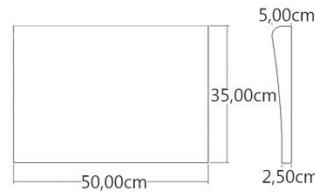

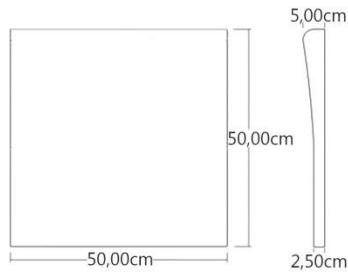

BORDAS E PISOS ATÉRMICOS PARA PISCINA

Cores e imagens meramente ilustrativas, sujeitas a variações de tonalidade.

ATÉRMICOS: produzidos com lava vulcânica, granito e cimento, os pisos Solário **STONEPLUS** têm a capacidade de manterem-se frios, inclusive em dias de intenso calor.

ANTIDERRAPANTE: por possuir uma superfície suave e porosa, os pisos Solário **STONEPLUS** diminuem o risco de queda em superfície molhada. Um ponto de segurança para todos, principalmente crianças.

SUAVES: apresentam uma superfície homogênea de grande qualidade, proporcionando uma sensação de suavidade e conforto ao toque.
